Copperhead Strategy

Shortly after the return of Vallandigham to Ohio, a Democratic District Convention was held at Cleveland, on the reported proceedings of which, as published by the *Herald*, appears the following

Mr Lowe, of Dayton, was present, and was invited to address the meeting He gave an account of the return of Vallandigham to that place He said Vallandigham told him he wanted the unity of the Democratic party maintained, and should not press his peculiar personal views upon the Chicago Convention He had no objection to the passage of a resolution in the Chicago Convention—to satisfy the War Democrats—that would denounce the rebellion and its originators, but not pledge the party after it came into power to continue the war Such a pledge as that was all he objected to.

The magnanimity displayed by the "martyr" in the above is refreshing. Then Val will not insist upon leading by the nose the Democracy of the nation, but is willing—"to satisfy the War Democrats"—that the rebellion shall be denounced He has not instructed his mouthpiece to state the precise extent of the denunciation the poor rebels are to receive by his royal permission, or offered to compare it in any way with the denunciation he desires to heap upon the war, the Administration and "Lincoln's hirelings" Mr. Lowe evidently knew he was not addressing War Democrats, or he never would have thus plainly offered to tickle them with so slim a straw He is willing that the War Democrats shall work with his party to defeat the Unionists, but when Mr. Lincoln is deposed, Vallandigham wants nothing more to do with War Democrats The war must stop, and as the South would not, under a Federal anti-war administration, consent to a peace upon any terms short of a recognition of their independence, of course Vallandigham's party would humbly apologise to the "wayward sisters," and let them "depart in peace" The blood and treasure of the North would—if the Copperheads could by any possibility succeed in carrying the Presidential election—all be wasted, the Union dissolved the great problem of self government wrought out to the disgrace of humanity, and our people made responsible for the debt of the South, and be hell by our neutral cousins across the Atlantic for sundry little amounts due them for pirates, pirate ships, munitions of war, blockade runners, etc. We hope War Democrats will view this question in all its bearings before arraying themselves against the only Union party

Rev Dr Bellows.—This gentleman, distinguished as a divine, and doubly distinguished by his efficiency as President of the United States Sanitary Commission, will soon be in our midst on a flying visit "to thank in person" as many as he may meet of our fellow citizens who have given of their abundance in aid of the noble cause in which he labors We hope that every facility will be afforded him for thanking a good many at one time, and in order the better to enable him to do so, we would suggest that all the preliminary steps be taken to have a mass meeting of the loyal people called so soon as the date of his arrival here becomes certain. We believe the people generally would take delight in testifying their appreciation of the great philanthropist Who will move in the matter?

A Lincoln And Johnson Club.—We understand that an interest is at last manifesting itself among true Union men in the immediate formation of campaign clubs It is none too soon, and we hope that within a week we shall be able to report the organization of one in each ward in this city, and several in the adjoining townships It will not occupy much time to meet and enroll the names of members, elect officers, and appoint such committees as may be deemed necessary, and keep the organization up with instructive addresses

There are now in the British Islands three hundred and seventy five distinct railway companies, which own eleven thousand and five hundred miles of road They carry about eighty millions passengers yearly, and give employment probably to not less than two hundred thousand persons

To a well known United States Senator, Gen Grant said, a short time ago—and that, too, while the rebel "invasion" was in progress "I am just as certain to take Richmond and crush Lee's army as the sun is to rise"

The Marysville *Appeal* says that a bat measuring sixteen inches from the tip of one wing to that of the other was recently captured at Smartsville in that county

The Salem *Statesman* has the following

Water Cure.—Dr C Hoel is repairing a large building in the lower part of the city with the intention of fitting it up as a water cure establishment We understand he expects to obtain the services of an experienced Hydropathist from the East

Escaped Convict.—The man confined in the Marion county jail, a few days since, under a charge of horse stealing, whose name was given as Wm N Johnson, turns out to be Wm. Hograb, who was sentenced to the penitentiary from Josephine county in 1860 for horse stealing, and escaped after two months' confinement He was given up to the deputy sheriff of Multnomah county, this morning, under a requisition from the Governor. His original sentence was for five years

Must be Stamped.—The county clerk of this county has called our attention to the fact that numbers of marriage certificates are sent to him for record that are not stamped Persons performing this important ceremony should remember that every certificate of this character requires a five cent stamp

Equalizing the Seals.—Before the war there was an excess of 720 000 males in the United States In this State in the same year, there was an excess 67,000 males over females In Illinois there was an excess of 92,000, Michigan had 10,000 In New York and Massachusetts the females exceed the males It will be seen that we must lose 730 000 men by the war before the sexes will be equal —*Appeal*

Oregon Freedmen's Relief Association

PORTLAND, Aug 1st 10, 1864

To our Fellow-Citizens

The undersigned appointed by the executive committee of the Oregon Freedmen's Relief Association for this State, and acting as auxilliary to the National Freedmen's Relief Association, wish to call attention to the just claims of this Association upon the humane and patriotic

THE ORIGIN OF THE ASSOCIATION

This Association was organized under the auspices of the United States Government, by the Secretary and Christian Commission, after the war commenced in February, 1862 and it has since that time been the fixed and unalterable conviction of its friends that it was not the object of humanity and justice to the whites only to mitigate their misery. As soon as the exigencies of the war would permit, the friends of humane efforts expect the chaplains of loyal regiments, and the loyal people in the neighborhood of the military camps and garrisons to co-operate with the Association in the work of relief.

The committee of the National Association is formed from the most reliable gentlemen from New York. The names of the President Francis G Shaw the Secretary Miss Gretchen and Ward, to Treasurer Joseph B Collins of members of the committee including Rev D Tyng, Wm Cullen Bryant Charles Gould Mansfield Fordo Wm A Butler and many others are as familiar household names with many of you as they are among the people of the Eastern States

Over one hundred thousand who fled from the African race carry arms wear the uniform, and aid in sustaining the flag of the Republic Sixty thousand are employed by the Government as teamsters and in similar avocations. The cry is still they come The armies of the Union at close nearly a million of these Freedmen women and children included, and with one accord, column the number daily increases Nearly four millions are to receive care and protection in the future in a greater or less degree All of the facts of the war fully demonstrate this

In the address of the National Association, from which we quote, it is stated

WHAT WE HAVE DONE FOR THEM, AND PROPOSE IN THE FUTURE

"This is no utopian scheme of benevolence We find them work and teach them how to do it We establish schools to teach them the common duties of life, and the elements of knowledge where they are massed with the development of the war To those having money we sell at moderate rates, and reinvest the proceeds for their good Those just emerging into our lines, it is utter destitution of all the necessaries of life, we furnish food, clothing, shelter, clothing, medicine and tools. The Government furnishes in every possible facility, and for transportation for employees and supplies In fine we propose to do the freed people what we can in the transition to freedom and while they remain in the seething cauldron of war"

THE WHITE UNION REFUGEES

On the 10th of June 1864 the National Association, on account of numerous personal appeals decided to add to its great work efforts for the White Union Refugees We deeply feel the importance of this class large and increasing numbers of persecuted whites coming within the Union lines, destitute of clothing and in want of food, large numbers being women and children with no means of subsistence, until they can be placed in some position to earn bread for themselves and little ones This work must be done by some one, and we look to the humane and benevolent to assist us in preserving from want and exposure, the white Union refugees during the coming winter Any money or clothing sent for the white Union refugees will be used for them.

WHAT IS DESIRABLE

Any party into whose hands this Circular may fall is most earnestly requested to act in the matter, and form a similar Association where the results to cooperate in this most imperative humane and patriotic work Can we, who are safe, and in circumstances of so great comfort, do less than pity and aid those suffering so much on account of the war Unless we would have their presence at our doors imploring with outstretched hands the means of existence we must aid in placing them in a self sustaining position, where they now are

Let the contributions be promptly forwarded to HENRY W CORBETT, Treasurer, Portland Ogn, and the same will be sent by him to the Treasurer of "The National Freedmen's Relief Association" Joseph B. Collins, New York.

Further About the Photographing Business—Suspicious Circumstances—From the S. F. *Flag* of Aug. 7th, we learn the following additional particulars, which will probably lead to other developments

Rulofson & Bradley were employed to take photographs of Fort Alcatraz It was afterwards proposed by some of the officers to have views taken of Black Point, Angel Island, etc. Alcatraz alone was photographed by Rulofson & Bradley. There are thirty views to a picture, comprising one set, the whole embodying a complete outline and detail of the improvements, batteries, etc Before the Alcatraz picture had been finished, Capt Stewart, of Fort Point sent a soldier to desire the artists to make a similar view of the works at that point It could not be done just then, and Capt Stewart employed Mr Klein, a traveling artist, who performed the service.

Capt Winder was furnished with one set, and soon after was seen to enter the gallery in company with Lieut. Mowry, a notorious secessionist, who has since returned to Arizona It is highly probable that Mowry took away with him the complete set of views obtained by Winder, as we have understood that the latter afterwards desired to buy others. We may suppose, therefore, with great reason, that whatever may be the result, the rebels will be in possession of a complete pictorial description of our fortifications within a few months Or they may have been intended for the information of the French fleet in Mexico.

As we understand now, the pretence is that these views were ordered by the War Department at Washington We do not believe that however, but should it prove true, the artists must have transcended their instructions No rational Department would have ordered the exact photographing of the *batteries*, and as suitable points, entrusting the negatives to an irresponsible party, one of whom is a notorious disloyalist, least of all would the Department have made any skinflint contract whose meagreness would compel the workmen to sell copies of the work to secure an adequate remuneration for their labor. It is usual with the Department to entrust such work to the corps of engineers, and it is reasonable to suppose that in times of war all rational precautions would be observed. Among a number of contradictions, it is said that General Wright ordered the work to be done by Rulofson and Bradley. If so, the employer or the employees can probably produce the order from the Department At any rate, an investigation and a full revelation of the facts are due to the people of this city and State, whose anxieties have become excited, and whose lives and property depend on the fortifications in question. Moreover, if the Department ordered the work to be done, why was the order countermanded?

We hope that the authorities upon whose vigilance and firmness the people of this city depend for protection, will induce Captain Winder, Rulofson & Bradley, and all others having views in their possession—if, indeed, none has already gone out of the State—to give them up at once, and to satisfactorily account for the number produced This information can be attained by a close examination of the persons employed in the gallery We repeat that thus much is due to the people of the city, whose apprehensions are keenly alive to the consequences which may result from a proceeding shrouded in mystery, at variance with the common instincts of self preservation and wholly unparalleled in military experience We are informed that a military gentleman, on examining the photograph remarked that if he belonged to the rebel army and had the money, he would give a hundred thousand dollars for them, he would require no better chart by which to get into San Francisco harbor So complete were they, in both aggregate and detail, that an enemy might as well be in close inspecting distance of every part of the fortifications.

Washington, Aug 15—The mail boat from City Point to day report that on the afternoon of the 13th a body of troops embarked on the transports at City Point and moved up the river. During the night under the cover of our fleet the gunboats effected a landing near Dutch Gap The object of this movement is stated to be to dislodge a considerable force of the enemy who had entrenched themselves on the river and also for the reconnoissance to ascertain what troops Lee has before Richmond and if he is sending any considerable reinforcements to Early There was heavy firing going on when the boat left by both cannonading and musketry

New York, Aug 16—A special to the *Herald* on the 15th says There are many rumors in circulation to day in regard to the movements of the different armies in Virginia the most of them are undoubtedly without foundation.

There seems to be little doubt that important changes are going on in the disposition of the rebel forces, which, of course must cause corresponding movements on the part of the Union armies, which will take some time yet to develop

The Point of Rocks correspondent, dated 11th says For some time Butler has been conning over a brilliant scheme which was to annoy the enemy and advance the Union interest The plan contemplates the construction of a canal at a point which has been known as Dutch Gap in the direct line of the enemy When done it will compel the enemy to extend his line of defence a distance of 4 miles The distance saved to us by digging a canal which is to be 1400 yards long is seven miles of water in James river The men engaged on this work were shelled by the rebel rams but our gunboats soon drove them away

A correspondent before Petersburg on the 13th says The rebels have erected a new fort inside and exploded one opened upon yesterday, with 4 big worth guns. Very few casualties occurred The rebels threw several hundred shells during the day

The *Times* Washington special says Sheridan has pushed his advance from Winchester to Strasburg Early is returning from that point toward the west It is believed to be Sheridan's intention to head off Early and envelop him between two forces but as it is ascertained that Lee has sent at least 20,000 men to reinforce the column in the valley there will probably be a stout contest for the possession of that region

A telegram received from Sheridan, dated Cedar Creek, 14th, states there is no enemy this side of Bute Indge except Moseby's and White's guerrillas

The *Herald's* City Point correspondence of the 14th says but little firing had occurred for a week past until yesterday About 9 o'clock A M, heavy guns were heard in the direction of Deep Bottom, a steady and sometimes furious cannonading was kept up all day.

The attack was commenced by the enemy which proved to be an attempt to dislodge with their artillery certain working parties of ours whom they seemed to have just discovered

As the batteries were unable to accomplish it, one or two of their rams dropped down the river as far as it was deemed prudent and added their fire

The affair was an artillery engagement of long range throughout

Our losses are inconsiderable

The character and design of the operations in which the working parties were engaged cannot be more than alluded to.

Time must develop them further

Washington, Aug 16—Secretary Stanton says that Government has received from Gen Canby an official report of the surrender of Fort Gaines and the abandonment of Fort Powell Fort Gaines surrendered unconditionally with 55 officers, 818 men and 26 guns. There was also 12 months' provisions The garrison at Fort Powell escaped The armaments of both Powell and Gaines were fit for immediate use Gen Granger will immediately invest Fort Morgan and garrison Forts Powell and Gaines

Indianapolis, Aug. 15—The rebels under Col Johnson, estimated at 1,000 strong, captured three steamers at Shawneestown, Illinois on Saturday The boats were loaded with Government cattle which were ferried across into Kentucky

Washington, Aug 15.—The following is official

On board the flagship *Hartford* in Mobile Bay, Aug 9—I have the honor to report to the Department this morning that I have entered Mobile Bay passing between forts Morgan and Gaines, and silencing the rebel ram *Tennessee* and the gunboats *Selma, Morgan* and *Gaines* The attacking fleet was under way by 5 45 A M in the following order *Brooklyn* with the *Octorora* on her port side, *Hartford* with *Metacomet Richmond* with *Port Royal, Lackawanna* with *Seminole, Monongahela* with *Tecumseh, Ossipee* with *Itasca, Oneida* with *Galena* On the starboard side of the fleet was the proper position for the monitors or iron clads Fort Morgan opened on us at 7 10 A M. Soon after the action became general as we steamed up the main channel, some difficulty occurred and the *Hartford* passed ahead of the *Brooklyn* At 7 40 the *Tecumseh* was struck by torpedo, and sunk very rapidly, carrying with her all of her officers and crew, with the exception of the pilot and eight or ten men who were saved by a boat which was sent from the *Metacomet*, which was along side the *Hartford* and had passed the other boats before 8 o'clock

Finding myself naked to the rebel gunboats, I ordered the *Metacomet* to cast off and go in pursuit of them She succeeded in capturing the *Selma* All the vessels had passed the forts by 8 o'clock, but the ram *Tennessee* was still apparently unimpaired in our rear The signal was at once made to all the fleet to turn again and attack the ram not only with guns but run her down at full speed The *Monongahela* was the first that struck her, and though she may have injured her badly, yet she did not succeed in disabling her The *Lackawanna* also struck her but ineffectually The flagship gave her a severe shock with her bow and as she passed fired a whole port broadside nine inch shot at a distance not more than twelve feet The monitors were closing upon her, and the *Hartford* and the rest of the fleet was bearing down on her when at ten she surrendered.

The *Morgan* and *Gaines* made their escape back under the protection of Fort Morgan. This terminated the action for the day Admiral Buchanan sent me his sword, being himself badly wounded with a compound fracture of his leg which it is supposed will have to be amputated

Having had many of my men wounded and the surgeon of the *Tennessee* having very desirous to have Admiral Buchanan removed to the hospital I sent a flag of truce to the commanding officer of Fort Morgan, Brig. Gen Richard L Page to say if he would allow the wounded to be taken to some place where they could be better cared for I would send one of our vessels, provided he would allow her to return bringing back nothing more than what she took out Page consented The *Metacomet* was dispatched Total loss on our side was 40 killed and 88 wounded On the *Tennessee* we capture 1 20 officers and 170 men On the Selma 90 others and more

New York, Aug 15—George Turner, coast pilot of Boston reports that he saw on the afternoon of the 12th while 17 miles distant from this port three vessels burning, and in the evening a large ship in flames.

Accounts from Boston Providence and other ports give the arrival of vessels reporting themselves and other vessels to have been captured by the *Tallahassee* Several of them were bonded and some burned

Washington, Aug 16—Official intelligence has been received that the U S forces have been temporarily withdrawn from Brownsville until the blockade thereof by the naval forces will be resumed

The Radicals of St Louis were preparing for a great Lincoln ratification meeting to be held on the 2 th of July Lincoln will receive much the same Radical support at that time from the same to in the *Democrat*

A Serious Accusation.—The New York *World* brings a most serious accusation against the Union candidate for Vice President *Hannibal Hamlin*. Its great crime consists in having once had the audacity to become one of the rulers of the nation

It is said that the silver mine of Gould & Curry is the only one in the Virginia district now paying a dividend

SAFE ARRIVAL OF THE MISSING STEAMER.—At eight o'clock last evening the steamer *Panyne*, A M. Burns Commander, arrived safe at her landing, foot of D street, in this city, and the firing of her gun was a signal which sent a thrill of gladness to the hearts of our citizens, who turned out en masse to welcome her, and every one on board. The *Panyne* left San Francisco on the 9th, and it was then blowing. The gale increased, and it was hard for her to make over two miles an hour for some distances, when she put in at Port Orford and was detained sixty hours, she was then detained ten hours off the Columbia Bar, in consequence of fogs. The trouble is all past now, and we venture to say that numerous heads rested in peace last night on pillows that would have otherwise been steeped in tears. SOUNDINGS AT THE MOUTH OF THE WILLAMETTE.—On Tuesday last Capt Strong, of the steamer *Julia*, took the following soundings in the old steamer channel, at the mouth of the Willamette, as he passed with the submarine cable to Vancouver

1st—4	fathoms,	24	feet	24 —1½ fathoms	9 feet

1st—4	fathoms,	24	feet	5th—2¾ fathoms,	16½ feet
2d—3	"	18	"	6th—2½ "	15 "
3d—1¾	"	10½	"	7th—3 "	18 "

According to the above, which is undoubtedly correct, there appears to be plenty of water for all our vessels at the present time, it must be remembered that the river is now about at the lowest stage. Unless something to the contrary turns up that bubble may burst.

THE MINT.—A friend of Local Items suggests that we should be delighted to think the Mint is located at the Dalles, it will show the exact amount of gold dust that stops there. Our enterprising private citizens should also be delighted, as it would be exceedingly amusing to see the *Mountaineer* and the Superintendent of the Mint standing on the river steps of the aforesaid institution watching the arriving steps of the aforesaid institution watching the steamers pass them, loaded with passengers for the steamer for Portland, the great Emporium of trade, to pay the small commission to our Assayers. Merchants, who are now importing their goods direct from Europe, prefer bars for shipment, to the gold coin therefore, don't be distressed about our dust. We will soon export them.

A FAMILY GATHERING.—Last Tuesday evening a most interesting family gathering was had under the paternal roof of Rev. Mr. Royal, in this city, upon which occasion twenty six children and grandchildren assembled around the family altar. The presentation of a beautifully bound family Bible to each, representative of a family, with fitting remarks, was one of mutual and agreeable surprises, and other entertainments appropriate, made the evening one of impressive pleasure. Yesterday morning the children sons and a son in law, all clergymen, left for the Conference of the M E Church, at Salem.

RATES OF INSURANCE.—The delay of the steamer has occasioned considerable inquiry for policies of insurance, and a rapid increase in the prices for same. On Monday 7½ per cent. was asked in San Francisco, on Tuesday 10 to 12 per cent, and yesterday 20 per cent. When the steamer arrived the figure was down. A gentleman in this city was considered out of his senses, when he expressed the opinion that insurers would make money at 5 per cent.

PERSONAL.—By a private telegram received in this city yesterday, we are informed that Colonel Bartlett has been re-instated, and promoted to the office of Chief Quartermaster in the military department of the Pacific. The Colonel is well qualified to discharge the duties of the office, and the numerous friends he has in this part of the country congratulate him in his new sphere, and pass judgment that it is a deserved appointment.

LITE PAPERS.—S J. McCormick, of the Franklin Book Store, laid upon our table last evening a valuable lot of illustrated and newspapers, of which he received a supply by the steamer *Pacific*. He returned on the boat himself, and is now prepared to enlarge his sales to suit the market. His store has been recently refitted, and all who visit it will find matters rich, racy and cheap.

CAPTURED.—A man by the name of Johnson, alias "four fingered Jack," who escaped from the Penitentiary some three years since, was captured in Salem on Saturday last and sent back to his old quarters in this city. He arrived by stage on Tuesday evening, securely shackled, in charge of an officer. The remainder of his term, which we learn is some years, will undoubtedly be made profitable to the State.

EXCHANGE AT A DISCOUNT.—Coin is wanted for the purchase of gold dust, which arrives in increased quantities, and sight exchange on San Francisco will be sold at a discount, by Ladd & Tilton, to day. Exchange has been at par for some months in this city, which is a good indicator of the amount of dust received.

RECOVERED.—The amalgamating pan lost overboard from the steamship *Oregon* recently, at Couch's wharf in this city, was recovered yesterday by a running bowline, and safely landed on terra firma. It will be forwarded to the upper country by the steamer *Wilson G. Hunt*, to-day.

FOOT RACE.—A man ran against time on the opposite side of the river yesterday, and lost his watch. He was to run a given distance in ten seconds, but failed to come to time.

CIRCUIT COURT.—The Court yesterday took under advisement many important points in the partition suit, and will announce his opinion to morrow morning at 9 o'clock.

CLOSED.—The Pioneer Hotel in this city was closed yesterday. Mr B G Whitehouse, the popular and worthy clerk, takes his position in the new hotel of Mr Arrigoni.

THE SIERRA NEVADA.—This steamship will leave San Francisco to day, for Victoria and Portland at 10 o'clock A M.

COMMERCIAL.

The San Francisco *Bulletin* of the 9th, with its usual characteristics for truthfulness (?), in matters concerning us says the exports to Victoria per steamer *Pacific* are valued at $10,038 37. *Probably*, double that amount went to Oregon on the same steamer, when the truth is Portland alone is represented in that cargo at near $30 000.

The steamship *Oregon* which left this port on the 3d, had arrived in San Francisco. The market for Barley and Oats was reported dull. Wheat commands 3¼ cents. Butter sold at 25@26 cents, with light sales. Lard was in active inquiry, holders demanding 15 cents for best Eastern.

MORE IMPROVEMENTS IN SEWING MACHINES.—The new Lock stitch, or shuttle sewing machine, recently brought out by the Grover & Baker Company, is the latest and one of the most perfect productions in the shuttle or lock stitch sewing machine line and is obtaining an increased popularity as its merits become known. This Company have always taken the lead with their machines, making the Grover & Baker stitch, and now the public have their choice of two machines, which make different stitches.—*Detroit Free Press*.

Oregonians should test the merits of Dr HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry wet and cold be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy2sdaw

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*" give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*

REDINGTON & Co., San Francisco, Agents for the Pacific Coast.

Dysentery.—For Dysentery and similar complaints of the Summer season, the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane, it places this surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Periodical Headache—so common in nucleated and marshy countries, Tic Douloureux, that most painful affection of the nerves of the face are often only attacks of ague in disguise—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhœa, are frequently but lingering forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmal cause. For such, Dr Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.

Imitations are abroad! Be particular to enquire for *Dr Osgood's Indian Cholagogue*. Sold everywhere.

ROMANCE IN BANKING —There is much of the romance of history in the origin of some of the great private banking houses still existing in our day —though illegal or less threatened with destruction by the grant of joint stock enterprise. The origin among others, of the house of Jones, Loyd and Co was very curious Mr Lewis Loyd, the founder of the house, father of the present Lord Overstone, began his career as a Welsh dissenting minister in a small chapel at Manchester, the congregation of which included a Mr Jones a rich cotton banker half manufacturer In addition to Mr Jones there was a young Miss Jones, who attended the sermons of the Rev Mr Loyd, and as often happens the maiden found the orations so eloquent that she fell in love with the preacher The affection was responded to by the minister, and the two, fearing the purse proud merchant would never consent to the *mes alliance*, were privately married Of course, when the affair became known to Mr Jones, Sen , as it could not fail to do, he was exceedingly angry but seeing that things went on pretty comfortably with his daughter, he became reconciled in the end to his reverend son in law, but, though fond of attending sermons, he did not think preaching a good business, and after a while proposed that Mr Loyd should give up the Welsh dissenting chapel, and enter his counting house as a partner, under the firm of Jones, Loyd & Co Mr Loyd consented and to extend the business and it was subsequently agreed that he should go to London, and establish a bank under the name of the Manchester firm, so that Jones, Loyd & Co , of Manchester might draw bills upon Jones, Loyd & Co , of London, or, as it was facetiously called at the time "pig upon bacon" It soon turned out that Mr Lewis Loyd was eminently fitted to be a banker, for his clearness of head, untiring industry, and perfect honesty, proved the foundation of success for the new establishment After a very long and honorable career, Mr Loyd retired from business, being succeeded as head of the London firm by his son. Mr Samuel Jones Loyd, who was subsequently created Lord Oxprstone Thus, the falling in love of a young Manchester girl with a Welsh Dissenting minister was the cause of the establishment of an important bank besides leading to the creation of a new peer of the realm

A SOLDIER'S LETTERING HIS OWN HEAD BOARD —A singular incident is related of Sergeant Major Polly, of the 10th Mass Volunteers A day or two before the regiment left for home, while lying in the trenches before Petersburg, he carved with his knife upon a wooden head-board, similar to those placed at soldiers' graves, the words "Sergt Maj George F Polly, 10th Mass Vols , killed June —, 1864," remarking to the Colonel, "I guess I'll leave the day blank." The next day he was instantly killed by a rebel shell, which struck him in the breast, tearing his body to pieces, Col Parsons, who was standing near him, narrowly escaping. He was buried on the field, and the same head-board that he had lettered now marks his grave He was not expecting to return with his regiment, as he had reenlisted

CORN DRINK —A Yankee girl send us the following To five gallons of cold water, add one quart of sound corn and two quarts of molasses Put all into a keg—shake well, and in two or three days it will be fit for use Bung tight It may be flavored with essence of spruce or lemon. The corn will last to make five or six brewings If it become sour add more molasses and water. It is a cheap and simple beer, and is called very good.

An apple tree in the garden of Dr King man, in North Bridgewater, Massachusetts, has lately produced a beautiful white rose, perfect in development and fragrance, but on a stem, the leaves of which appear to be a union of the qualities of the rose and the apple leaf This curious phenomenon appears about half way between the time of apple blossoms and of roses

Notwithstanding the zeal and ability which have been devoted to its investigation it remained almost unknown until Dr Henry Anders, a physician and chemist of New York, after years of patient labor and experiment discovered a chemical process which enabled him to dissolve
